

Firemen Helmet (FRP) With Leather Neck Flap

CON-F4

Introducing CON - F4

Concord Fireman Helmet is designed specifically for firefighters, made of FRP, which retains its original property & shape even in high temperature fire hazard area. The helmet protects the wearer from fire, falling debris & amber, scalding water & extreme temperatures. Our helmets are tested to withstand exposure to extreme temperature environment multiple times and retain all its functional properties. Further the helmet is attached to a Neck flap which provides protection to the neck of the wearer from Heat & other debris.
