

# Nylon V-Type Chin Strap with push type buckle CON-A5

## Introducing CON - A5

Our Helmets can be fitted with V-Type Nylon chin strap, for maximum durability and strength. Unlike natural fibers which deteriorate due to ageing, synthetic fibers like nylon have higher longevity. The push type triglade buckle provided with chin strap makes it easy to fasten and un-fasten our helmets. The 4 point connection system makes the inner harness sturdy and secure.

## Compatibility

- Concord Nape Helmet
- Concord Mines Helmet

## Colours Available

As per picture

## Technical Specification

- MOC : Nylon
- Adjustable tryclyde buckle MOC : Delrin
- End Fitting : Buckle

## Special Features

-  Light weight
-  Adjustable tryclyde buckle
-  Ease of wear
-  Durability and longevity

## Industry

-  Mining
-  Automobile
-  Steel & Power
-  Cement
-  Process Industry
-  Refractories
