PROTECTING YOUR FUTURE

PC VISOR WITH ALUMINISED FABRIC RIMMING AND ALUMINUM BRACKET

Introducing CON - A12

Introducing the ultimate safety companion for those working near furnaces, the Concord PC Visor with Aluminized Fabric Rimming and Aluminum Bracket. Crafted with precision, this cutting-edge visor provides unparalleled protection, shielding the face from scorching convection air and hazardous molten metal splashes. The innovative combination of aluminized fabric rimming and an aluminum bracket ensures exceptional heat resistance, safeguarding users from potential risks. Ergonomically designed for comfort, the Concord PC Visor guarantees a secure fit and unhindered visibility, enabling workers to focus on their tasks with confidence. Step into a new era of workplace safety with the Concord PC Visor, your trusted shield against extreme heat and molten metal hazards.
