

# Acrylic Cobalt Blue Visor with aluminum bracket CON-A10

## Introducing CON - A10

Concord Cobalt blue visors are designed to be compatible with concord safety helmets. The Polycarbonate Visors are used to protect the user's face from high speed particle impacts , chemical splashes , etc. Our Visors are made up of highest grade poly carbonate material. The Aluminium bracket of our visor makes them stronger and sturdier. The Visor's blue shade gives enhanced protection from Heat to wearer's eyes.
